

Southeast Delco School District
Continuity of Education and Planned Instruction
June 1 – June 5

Special: **Art**

Teacher: Tara Chambers, Christine Hall, Riley Patrone

Email the completed work to **YOUR** art teacher at the following email-

Sharon Hill School- tchambers@sedelco.org

Harris School- chall@sedelco.org

Delcroft School- rpatrone@sedelco.org

Grade: 2

Resources: paper, pencil, eraser, crayons or markers to color,

Lesson- see the pages to follow

Who wants to build a Sand Castle?

How are sand castles made?

A sand castle is made of sand glued together by water. Without any water, sand flows; a perfectly dry sand castle would collapse into a heap. Too much water, on the other hand, creates sand soup.

Art is everywhere, even on the beach!!

Did you know that some beaches have sand castle and sand sculpture competitions??

Look at the following Sand Castles

What shapes can you find?

Look at all of the COOL details? Windows, archways, brick, stone, steps, etc.

Here are some examples of Sand Castle Masterpieces!

For the project,

You have a choice

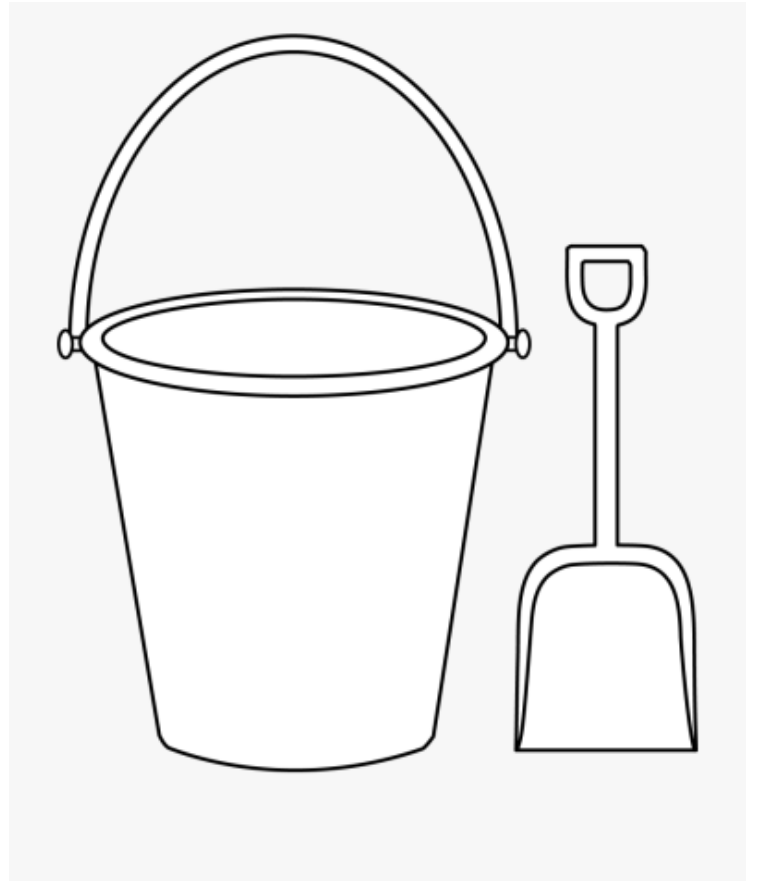

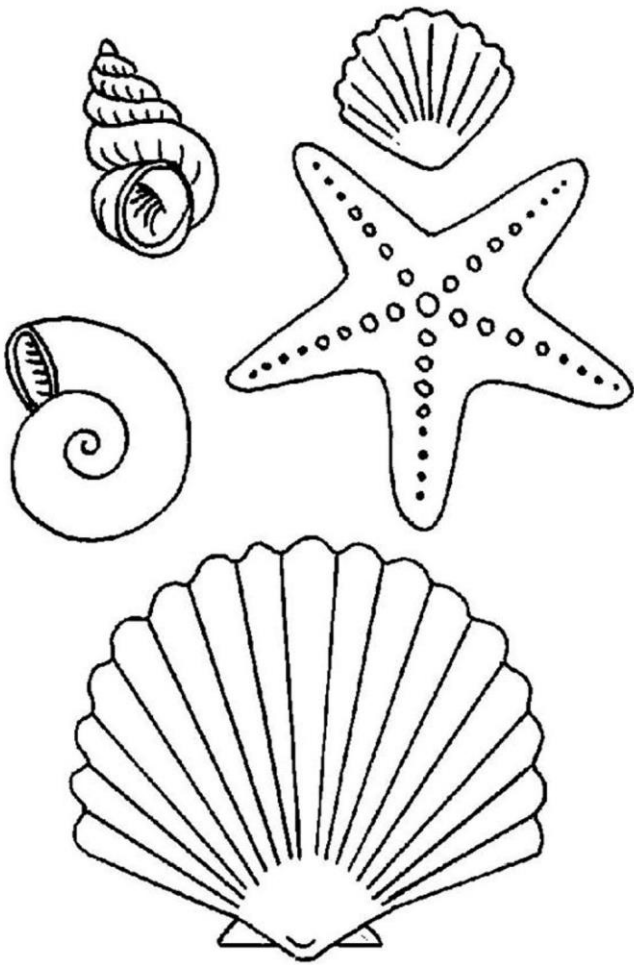

You can draw your own sand castle using shapes, rectangles, triangles, squares, etc. then decorate it how you would like...then color it, if you have crayons and markers.

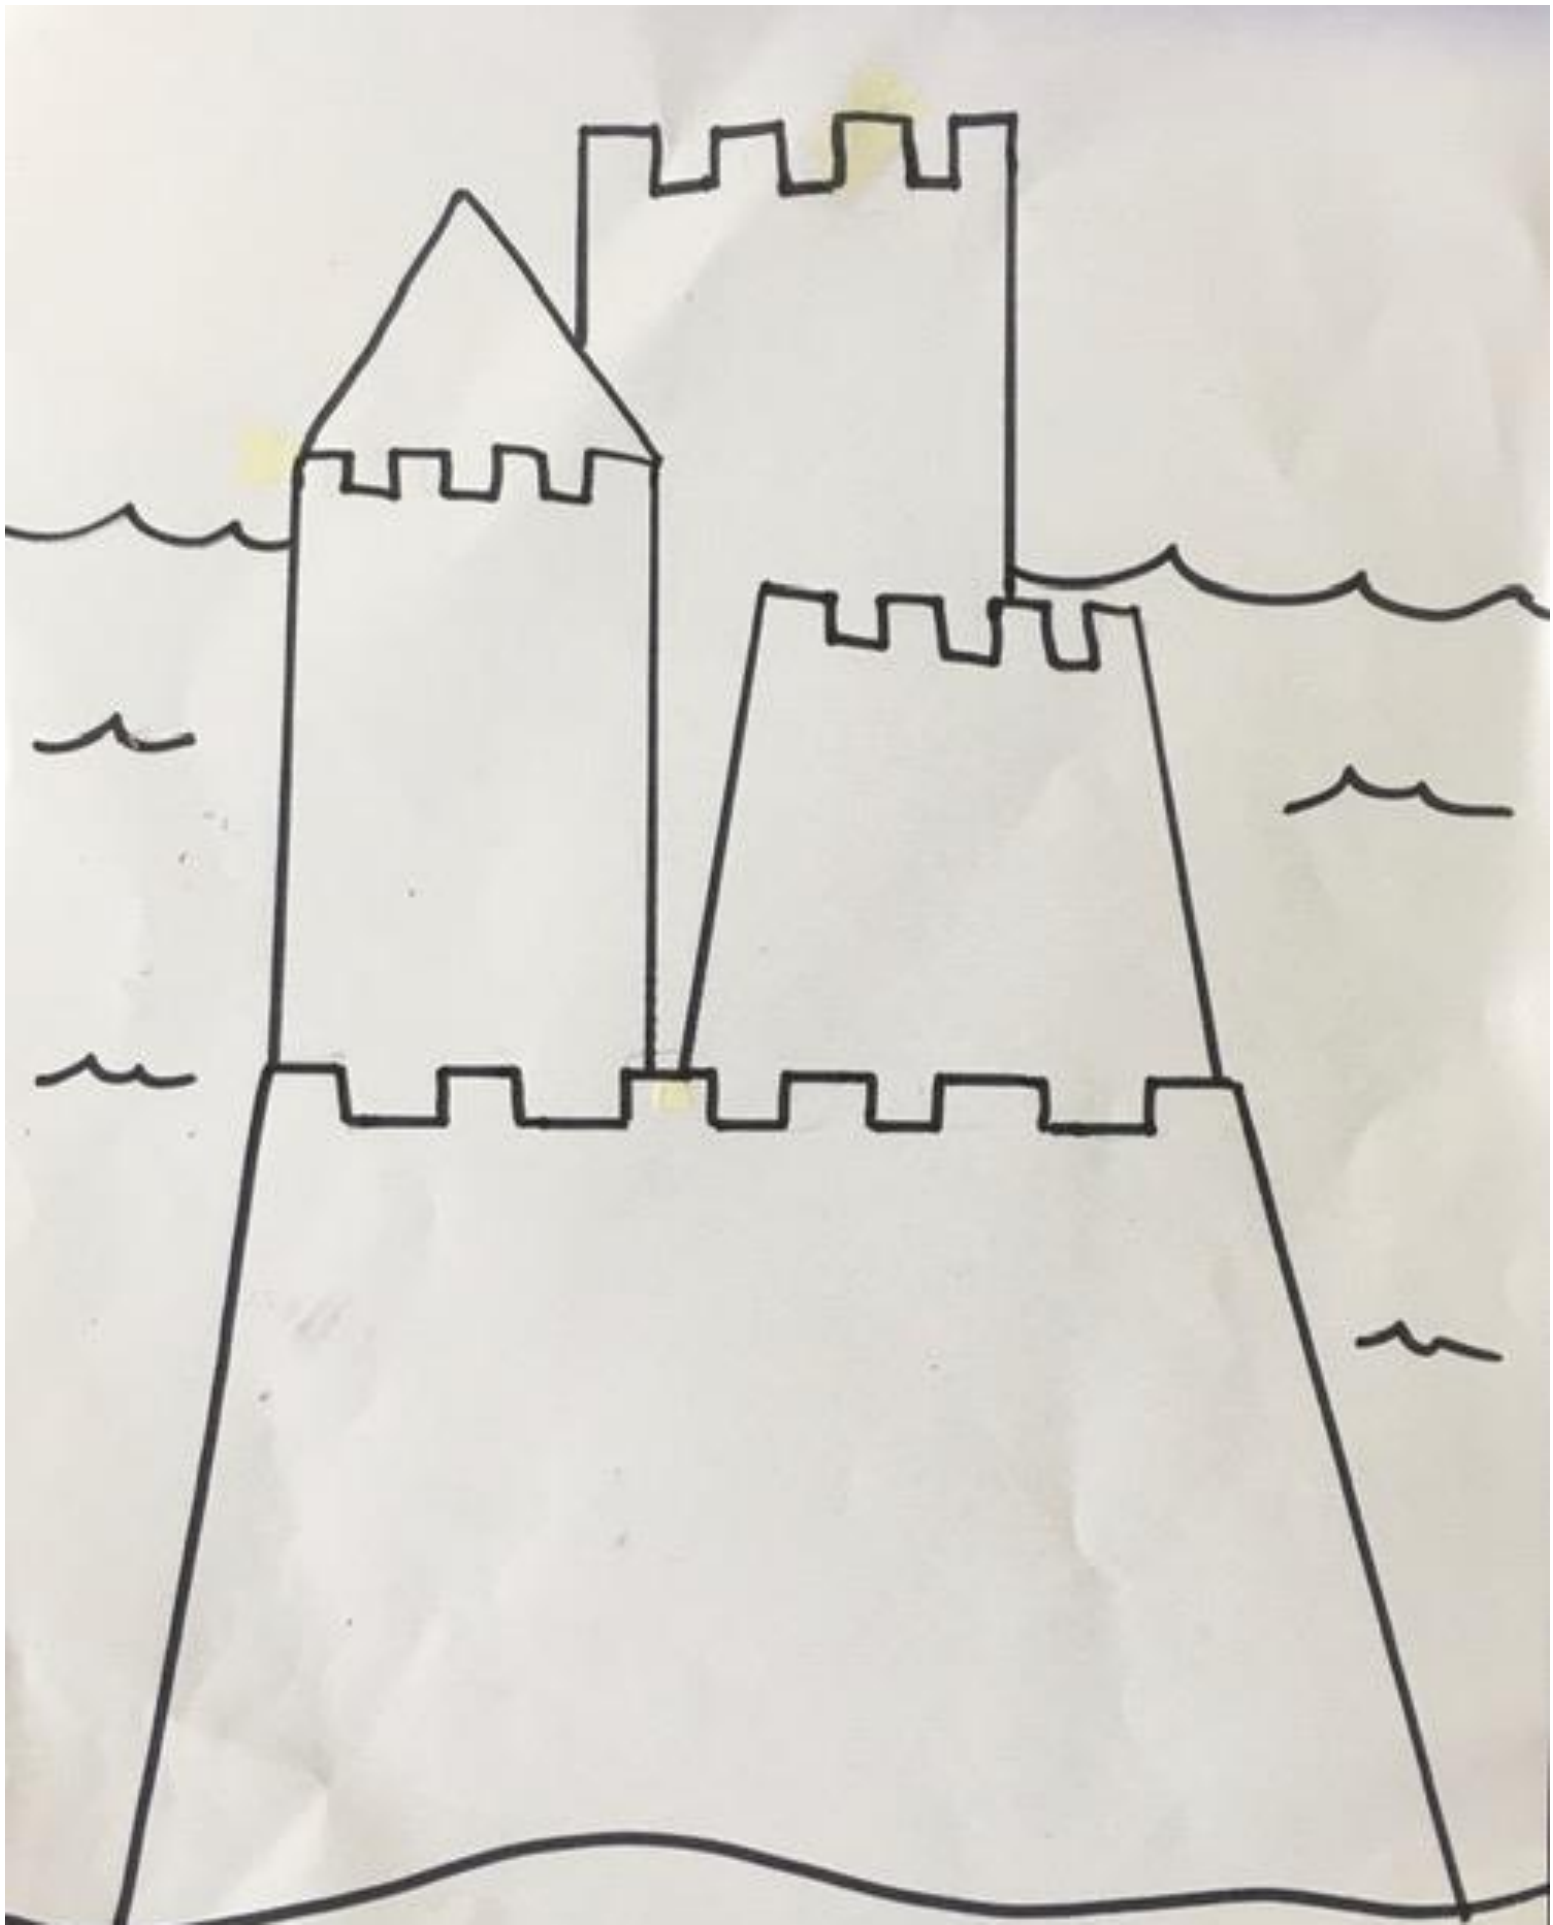

OR

You can use the template and decorate it and then color if you have crayons or markers.

Here are some things you can draw on your sand castle if you would like. (Look for shapes when drawing the objects.)

Be creative and add things in the sky and water.

Reflection

1. Did you draw your own sandcastle and if so, what shapes did you use?
2. What is your favorite detail you added to your sand castle?
3. Is there anything you would change if you could?
